**For Immediate Release**

## **AEM is joining the prestigious SEMI Taiwan Testing Committee**

**Singapore, 5 March 2020** – AEM Holdings Ltd (“**AEM**” or “**the Group**”), a global leader offering application specific intelligent system test and handling solutions for semiconductor and electronics companies serving advanced computing, 5G and AI markets , is pleased to announce that it has become a member of the SEMI Taiwan Testing Committee.

SEMI is the global industry association serving the product design and manufacturing chain for the electronics industry, with over 2,200 member companies and 1.3 million professionals worldwide.

SEMI Taiwan Testing Committee serves as a formal working committee represented by members of the global companies and semiconductor communities involved in the related industries to provide assistance to the events and programs development of SEMI Taiwan. Through this platform, members are able to excel business and networking opportunities among manufacturers and suppliers, and also to better grow the industry.

Mr. Pascal Pierra, Senior Vice President and General Manager of SLT-i business unit has been voted as one of the members of SEMI Taiwan Testing Committee who are selected from influential industry professionals and will represent AEM moving forward.

AEM’s Executive Chairman Loke Wai San commented, “It’s our honour to join other industry leaders and academia and become a member of the SEMI Taiwan Testing Committee. We look forward to contributing our knowledge and resources to promote the ecosystem for the industry to grow and cope with the rapidly evolving demands for increased complexity, accuracy and efficiency in semiconductor testing.”

### **About AEM Holdings Ltd**

AEM Holdings Ltd is listed on the main board of the Singapore Exchange (Reuters: AEM.SI; Bloomberg: AEM SP).

AEM Holdings Ltd (“AEM”), a global leader offering application specific intelligent system test and handling solutions for semiconductor and electronics companies serving advanced computing, 5G and AI markets.

AEM takes pride in providing innovative, engineering-focused solutions and developing strong partnerships with customers and associates to cater to their manufacturing needs through our global engineering service support network and innovative people. Currently, AEM has 4 manufacturing plants located in Singapore, Malaysia (Penang), China (Suzhou) and Finland (Lieto). Through our network of sales offices, associates and distributors, we have a global market presence spanning Asia, Europe and the United States.

### **About SEMI**

SEMI® connects more than 2,200 member companies and 1.3 million professionals worldwide to advance the technology and business of electronics manufacturing. SEMI members are responsible for the innovations in materials, design, equipment, software, devices, and services that enable smarter, faster, more powerful, and more affordable electronic products. Electronic System Design Alliance (ESD Alliance), FlexTech, the Fab Owners Alliance (FOA) and the MEMS & Sensors Industry Group (MSIG) are SEMI Strategic Association Partners, defined communities within SEMI focused on specific technologies. SEMI maintains offices in Bangalore, Berlin, Brussels, Grenoble, Hsinchu, Seoul, Shanghai, Silicon Valley (Milpitas, Calif.), Singapore, Tokyo, and Washington, D.C.

### **About SEMI Taiwan Testing Committee**

The SEMI Taiwan Testing Committee was formed to strengthen the last line of defense to ensure the reliability of advanced semiconductor applications. It gathers testing experts and academics from prominent organizations such as MediaTek, Intel, NXP Semiconductors, TSMC, UMC, ASE Technology, SPIL, KYEC, Teradyne, Advantest, FormFactor, MJC, Synopsys, Cadence, Mentor, and National Tsing Hua University to collaborate in building a complete testing ecosystem. The committee addresses common technical challenges faced by the industry and cultivates next-generation testing professionals to enable Taiwan to maintain its global leadership in semiconductor testing.
