

For Immediate Release

AEM brings next-gen testing solutions to SEMICON Taiwan 2021

AEM will be showcasing its full-stack, end-to-end capabilities and solutions with live demos and presentations to visitors

Singapore, 2 November 2021 – [AEM](#), a global leader in test and handling solutions, will participate in [SEMICON Taiwan 2021](#). The event, co-organized by SEMI and TSIA, will be held in Taipei, Taiwan, from 28th to 30th December.

AEM will showcase its latest technologies and innovative solutions for semiconductor and electronics testing, particularly its system level test (SLT) and automatic test equipment (ATE) solutions, which are aimed to address evolving technology needs in testing for manufacturers.

As a key highlight, AEM will present a live demo of the [M5S-HD tester](#), its ATE solution that is designed to meet the market demand for affordable and efficient testers. The M5S-HD tester targets industries including mobility, consumer, computing, and automotive.

In addition, customers will also be invited to an exclusive look into the company's next-gen SLT solutions, which are built to ensure full test coverage of chips more reliably at a quicker pace

Chandran Nair, the Chief Executive Officer of AEM, said: "Taiwan is an important market for AEM. It is a significant powerhouse in the global semiconductor industry, with its contract manufacturers accounting for more than 60% of the total global foundry revenue in 2020. We're excited to be able to introduce our industry-leading solutions at SEMICON Taiwan, where visitors will be able to meet with our experts and learn how our test innovations can help meet their changing testing needs."

AEM continues to lead in providing SLT solutions for the industry. As a testament to the company's success, it was recently [selected as the SLT solution supplier for one of the industry's leading memory integrated device manufacturers](#). The selection reaffirms AEM's clear industry leadership and commitment to providing the most flexible and cost-competitive test solution across the broad semiconductor market.

The company has also expanded its capabilities in 2021 through numerous partnerships with leaders in various sectors and markets. In particular, its partnership with ATECO Inc has seen [wins with two of the largest memory manufacturers](#) in the semiconductor industry.

To learn more about AEM's industry-leading semiconductor and electronics test solutions and to view the live demo, visit **Booth K3090** at SEMICON Taiwan 2021.

###

About AEM

AEM is a global leader in test innovation. We provide the most comprehensive semiconductor and electronics test solutions based on the best-in-class technologies, processes, and customer support. AEM has a global presence across Asia, Europe, and the United States. With manufacturing plants located in Singapore, Malaysia (Penang), Indonesia (Batam), China (Suzhou), and Finland (Lieto), and a global network of engineering support, sales offices, associates, and distributors, we offer our customers a robust and resilient ecosystem of test innovation and support.

AEM Holdings Ltd is listed on the main board of the Singapore Exchange (Reuters: AEM. SI; Bloomberg: AEM SP). AEM's head office is in Singapore.
