

AEM returns to SEMICON Taiwan 2023 for the fourth year running

Singapore, 15 August 2023 – AEM, a global leader in test and handling solutions, will be returning to SEMICON Taiwan 2023, held in Taipei, Taiwan from 6 to 8 September. This will be the fourth consecutive year that AEM will be present at the show.

AEM returns to the Testing Pavilion this year to showcase its industry-leading Test 2.0 solutions for semiconductor and electronics testing.

For the first time, AEM will present a live demonstration of its [M7IS Application Specific tester](#), a customizable testing platform designed to meet the need for cost-effective and efficient testers in engineering and production environment. The M7IS Application Specific tester offers CMOS Image Sensors and RF SOCs test solutions, and is a part of the fully integrated [CMOS Image Sensor Test Cell, delivered to UTAC in early 2022](#).

AEM will also present a demo with the [ATOM Handler](#), a benchtop handler designed for use on engineering test floors, labs and in development operations.

AEM will showcase their system level test (SLT) and automatic test equipment (ATE) solutions, designed to deliver application-specific testing that works with customers' data analytics capabilities, while addressing higher levels of customization required in the test environment while remaining cost-effective and efficient.

Visit AEM at **Booth K2690** to learn more about the company's industry-leading semiconductor and electronics test solutions during SEMICON Taiwan 2023.

About AEM

AEM is a global leader in test innovation. We provide the most comprehensive semiconductor and electronics test solutions based on the best-in-class technologies, processes, and customer support. AEM has a global presence across Asia, Europe, and the Americas. Our R&D centers are crucial in innovating and advancing our in-house engineering capabilities to deliver technologies and solutions for the next generation of semiconductor testing needs. AEM's R&D centers are situated in Singapore, Malaysia, Finland, France, and the US. With manufacturing plants located in Singapore, Malaysia (Penang), Indonesia (Batam), Vietnam (Ho Chi Minh City), China (Suzhou), and Finland (Lieto), and a global network of engineering support, sales offices, associates, and distributors, we offer our customers a robust and resilient ecosystem of test innovation and support.

AEM Holdings Ltd. is listed on the main board of the Singapore Exchange (Reuters: AEM. SI; Bloomberg: AEM: SP). AEM's head office is in Singapore.
